1030 Yair Amit (f 82), prob+Adi Shaharabani, SkyCure, BYOD protection, young start up.

1130 Michael Momchouglu (f 82)+ Giora Engel, LightCyber founders, Anomaly detection.

I've left for next time Idan Tendler (f 82), FortScale, also Anomaly detection start up.

I will have with me on our side also Nimrod Priell, Nili's youngest son,29, MSc in Math from Courant institute,Columbia Univ. Now a data scientist with Onavo, an IL young company.He is a former 8200 as well and brought these young start ups from among his acquaintances.

A line/tel # for the Skype call before Friday morning is still needed.
